INFORMATION FOR PEOPLE JOINING THE FIELD MEETINGS OF THE ESSEX FIELD CLUB

1. Please confirm that you are coming to Essex Field Club meetings by emailing or telephoning the leader a few days beforehand to check for details; and let the leader know if you later find you can't attend so we don't wait needlessly, or if you need to leave early, to save us registering you as lost and possibly injured.
2. Health and safety of participants is an Essex Field Club priority, but you have some duty of care for your own safety and that of others during a meeting. The leader will brief you on the day about any particular hazards of the site known to them; please make sure you listen.
3. Do not attempt a walk (which may cover several miles) unless you are fit and able to do so and be prepared for normal footpath hazards. Check when booking if doubtful.
4. EFC Field meetings, unless otherwise stated, are led by members working in an amateur and volunteer capacity on behalf of fellow members and others in the Group. Meeting leaders are not expected to administer first aid, or to provide first aid equipment.
5. On meetings which include a picnic, we recommend you bring your own wipes or water to clean your hands before eating, and a plastic bag for sitting on which can then be used to carry waste home.
6. If you have a medical condition such as angina, a pacemaker, diabetes, blackouts or allergy to stings etc. that may give rise to a medical emergency during a meeting, you must inform the leader 2 days in advance to see if there might be a problem. N. B. Mobile phone contact to emergency services may not be available in remote areas. (A fuller version is on our website at www.essexfieldclub.org.uk/portal/p/Meetings+guidance)

For all geology field meetings, it is essential that you book ahead and that you read and agree to the rules and advice outlined on the Essex Rock and Mineral Society web site (www.erms.org). Copies can be supplied on request from Peter Allen (01992 630661; peter.allen6@virgin.net).
